Fremont-Winema National Forest
Lakeview/Bly Districts
18049 Hwy 395
Lakeview, OR 97630

Dear Resource Managers,

We are concerned about the November 19-20 Lake County Coyote Calling Derby, which you can see in the event flyer at the end of this letter. We believe event participants will be hunting on public lands managed by Bureau of Land Management (BLM) and U.S. Forest Service (USFS). Entry fees and monetary rewards demonstrate that the event represents competitive and commercial uses and hence requires a Special Use Permit from the USFS and a Special Recreation Permit from the BLM.

We believe the event will have significant impact on wildlife and interfere with other uses of the land by recreationists such as bird watchers, hikers, wildlife watchers, wildlife photographers, and others. Additionally, federally protected threatened and endangered species as well as migratory birds may be put at risk. The threat to gray wolves, federally protected by the Endangered Species Act throughout the entirety of Lake County, is of

LETTER TO OREGON RESOURCE MANAGERS, pg. 2 of 3

RE: Lake County Coyote Calling Derby

Sent via email on Nov. 14, 2016

particular concern because the goal of the derby is to kill as many coyotes as possible, and wolves are often and easily mistaken for coyotes. Gray wolves are known to be present in the area.

The ESA requires federal agencies to consult with the U.S. Fish and Wildlife Service (USFWS) to ensure that actions do not jeopardize listed species or adversely modify critical habitat. If USFWS advises the agency the listed species may be present, a biological assessment must be provided. If the action may affect a listed species, a Biological Opinion must be prepared. We believe a Biological Opinion must be prepared for this contest because gray wolves may be affected by the contest.

As far as we know, the promoter has not requested a Special Use Permit from the USFS or a Special Recreation Permit from the BLM, so we request that your agencies inform the promoter of the need to apply for such permits. If the promoter has applied for permits, we would like to be notified, and would further request to receive copies of public information regarding the application, as well as any notices of announcements for public comment on the application. Given the risk posed by the coyote hunting contest to endangered gray wolves, the significant negative impacts to coyotes and other wildlife, and the interference with other recreational uses, we ask that permit requests be denied.

Thank you for your attention to this matter and we look forward to your response.

Sincerely yours,

Brooks Fahy, Executive Director
Predator Defense

Andrea Santarsiere, Senior Attorney
